ABOUT ME

I am a dedicated and results-driven IT specialist with a strong foundation in **system administration, networking, and software development**. With hands-on experience in **Linux systems**, **ethical hacking**, and **front-end design**, I combine technical expertise with problem-solving and communication skills to deliver efficient and secure digital solutions. My background in **accounting and customer service** has strengthened my attention to detail, analytical thinking, and ability to collaborate effectively in diverse environments. Passionate about innovation and continuous learning, I strive to contribute to impactful projects that bridge technology and real-world needs.

EDUCATION AND TRAINING

Bachelor's

University of Information and Communication Technology [15/10/2021 – 11/06/2025]

City: Baghdad | **Website:** https://uoitc.edu.iq/ | **Field(s) of study:** Information and Communication Technologies:
- Information and Communication Technologies (ICTs) not further defined

SKILLS

Programming / Photography / Database Management / Ethical Hacking / Linux Administration / Front-End Development / Accounting

WORK EXPERIENCE

🏢 ***Al-Sultan Furniture*** – Baghdad, Iraq

City: Baghdad | **Country:** Iraq

Production accountant

[14/11/2018 – 23/08/2020]

Managed financial transactions and records, including sales, purchases, and employee accounts using Al-Bayan accounting software.
Prepared and analyzed financial reports to support management decisions and ensure accurate tracking of assets and expenditures.
Monitored customer accounts and coordinated with preparation teams to ensure timely processing of invoices and account settlements.

Iraqi Cartoon House – Baghdad

City: Baghdad

System Administrator

[11/05/2022 – Current]

Administered and maintained the organization's IT systems, ensuring continuous service availability and resolving communication or connectivity issues.
Implemented system updates and security measures to protect against cyber threats and ensure compliance with the latest technological developments.
Developed and customized a secure Linux-based communication system tailored to the organization's operational needs.

Al-Sareea Customer Support – Baghdad

City: Baghdad

Customer follow-up

[14/12/2022 – 07/05/2023]

Supervised customer relations and delivery operations, ensuring fair task distribution among delivery staff and prompt resolution of issues and emergencies.
Monitored customer inquiries and service requests, providing timely follow-ups and maintaining high satisfaction levels.
Utilized strong communication and interpersonal skills to enhance the customer experience and strengthen client relationships.

DRIVING LICENCE

Driving Licence: B   18/06/2025 – 17/06/2035

HOBBIES AND INTERESTS

Technology & Innovation Passionate about exploring emerging technologies, software systems, and innovative digital solutions that improve productivity and efficiency.Write here the description...

Teamwork & Volunteering Write here the description...Actively participate in community initiatives and enjoy collaborating with diverse teams to achieve shared goals and make a positive impact.

Fitness & Outdoor Activities Write here the description..Maintain a healthy lifestyle through regular exercise, walking, and outdoor adventures that promote both physical and mental well-being..

Creative Problem Solving Write here the description...Love tackling challenges that require analytical thinking and creativity, whether in technical projects or everyday life situations.

LANGUAGE SKILLS

Mother tongue(s): Arabic

Other language(s):

LISTENING B2 **READING** B1 **WRITING** B2

SPOKEN PRODUCTION B1 **SPOKEN INTERACTION** B1

German

LISTENING A2 **READING** A2 **WRITING** A1

SPOKEN PRODUCTION A1 **SPOKEN INTERACTION** A1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

CERTIFICATIONS

[Ministry of Higher Education and Scientific Research, 05/08/2024]
Ethical hacker Write here the description...Skilled in identifying and exploiting security vulnerabilities ethically to strengthen systems; experienced with penetration testing, vulnerability assessment, social-engineering awareness, and recommending remediation measures while adhering to legal and ethical standards.

Mode of learning: Hybrid

[Cisco Networking Academy, 15/07/2024]
CCNAv7: Introduction to Networks Gained a solid foundation in networking concepts, architectures, and protocols. Learned how to set up and manage basic networks, configure network devices, and apply fundamental troubleshooting techniques. Developed an understanding of IP addressing, network models (OSI & TCP/IP), and the principles of reliable data communication essential for modern network environments.

Mode of learning: Project based

[Cisco Networking Academy, 25/04/2025]
CCNA: Switching, Routing, and Wireless Essentials Built practical skills in configuring, managing, and troubleshooting enterprise-level switches, routers, and wireless networks. Acquired hands-on experience in implementing VLANs, inter-VLAN routing, and wireless connectivity solutions. Strengthened knowledge in network security, redundancy, and quality of service (QoS) to ensure efficient and secure data transfer across various infrastructures.

Mode of learning: Project based

[Cisco Networking Academy, 10/10/2025]
CCNA: Enterprise Networking, Security, and Automation Advanced understanding of complex enterprise networking solutions, including dynamic routing, network automation, and security protocols. Learned to design scalable and secure network infrastructures, implement VPNs and access control, and apply automation tools using Python and Cisco DNA Center. This course emphasized modern enterprise network management aligned with real-world IT and cybersecurity practices.

Mode of learning: Project based

[Google Student Developers Club, 15/05/2024]
Your Opportunity to Study Abroad An enriching chance to gain global academic experience, explore diverse cultures, and develop both personal and professional skills. Studying abroad broadens perspectives, enhances adaptability, and fosters independence while building an international network and preparing for a successful global career.An enriching chance to gain global academic experience, explore diverse cultures, and develop both personal and professional skills. Studying abroad broadens perspectives, enhances adaptability, and fosters independence while building an international network and preparing for a successful global career.

Mode of learning: Online

HONOURS AND AWARDS

[04/01/2023] Office of the Iraqi Prime Minister
Certificate of participation in the Youth and Sports Competition Youth and Sports IoT Competition Participated in a national-level competition focused on **Internet of Things (IoT)** innovation and applications. Gained hands-on experience in designing and developing IoT-based solutions aimed at improving efficiency and connectivity in real-world environments. Enhanced teamwork, problem-solving, and creative thinking skills through collaborative project work and technical challenges.

[11/06/2024] University of Information and Communication Technology
Certificate of participation in the artificial intelligence competition Artificial Intelligence Competition Participated in an AI-focused competition, where I applied machine learning algorithms and data analysis techniques to

solve real-world problems. Gained experience in building and optimizing AI models, working with large datasets, and collaborating with multidisciplinary teams. This opportunity enhanced my understanding of AI concepts and their practical applications in various industries.

SOCIAL AND POLITICAL ACTIVITIES

[06/04/2024 – Current] Nuqta Academy for Digital Arts Education / Baghdad
Head of Programming and Media Department Led a dynamic team responsible for the development, management, and delivery of programming and media content. Oversaw the creation of digital media strategies, coding projects, and programming workflows to ensure timely and high-quality output. Coordinated cross-departmental efforts to integrate media solutions, enhance user engagement, and ensure alignment with organizational goals. Fostered innovation in both the creative and technical aspects, driving the department's success and development.
